Address: Zone A, 4F, No.1719-5, Huishan Avenue, Huishan Economic Development Zone,
Wuxi, Jiangsu, 214174, China

01

Respiratory Multiple Pathogen Antigen Rapid Test Series (Immunochromatographic Assay)

Model TC1002

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Sars-cov-2(-
Covid-19) from human anterior nasal
swab specimens.

Name SARS-CoV-2 Antigen Test Kit

Model BTK-H2201 (For the US. ONLY)

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use EUA(US) approved rapid antigen self
test for COVID-19 from human anteri-
or nasal swab specimens.

Name Covid-19 Antigen Home Test

Model ICA2114-10

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Flu A&B from
human anterior nasal swab speci-
mens.

Name Flu A/Flu B Antigen Rapid Test Kit

Model ICA2114-9

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B from human nasopharyngeal swab specimens.

Name Respiratory 3-in-1 Rapid Antigen Test

Model ICA2114-8

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/RSV from human anterior nasal swab specimens.

Name Respiratory 4-in-1 Rapid Antigen Test

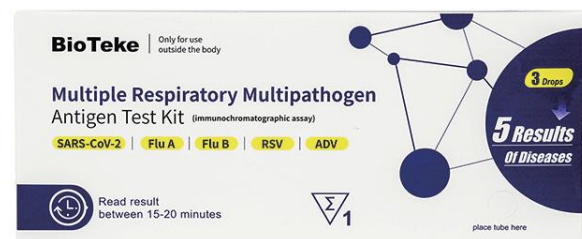

Model ICA2114-7

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/RSV/ADV from human anterior nasal swab specimens.

Name Respiratory 5-in-1 Rapid Antigen Test

Model ICA2114-11

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/RSV/ADV/MP from human nasopharyngeal swab specimens.

Name Respiratory 6-in-1 Rapid Antigen Test

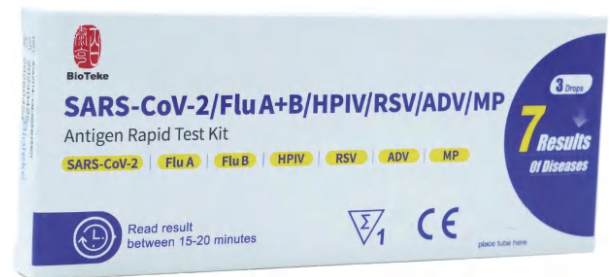

Model ICA2114-13

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/HPIV/RSV/ADV/MP from human nasopharyngeal swab specimens.

Name Respiratory 7-in-1 Rapid Antigen Test

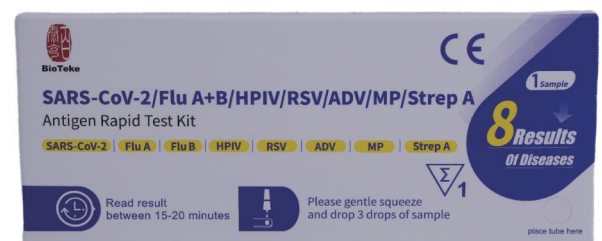

Model ICA2114-14

Packing 1 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/HPIV/RSV/ADV/MP/Strep A from human nasopharyngeal swab specimens.

Name Respiratory 8-in-1 Rapid Antigen Test

Model ICA2114-12

Packing 1 test/kit; 5 tests/kit; 20 tests/kit

Use Rapid antigen test for Mycoplasma Pneumoniae(MP) from human nasal swab specimens.

Name MP Antigen Rapid Test Kit

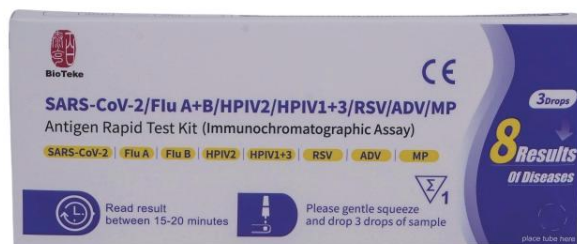

Model ICA2114-15E

Packing 1 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/HPIV2/HPIV1+3/RSV/ADV/MP/ from human oropharyngeal swab specimens.

Name Respiratory 8-in-1 Rapid Antigen Test

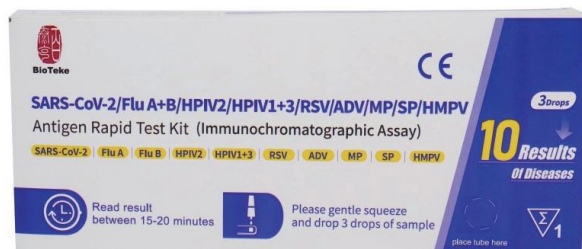

Model ICA202501

Packing 1 tests/kit; 20 tests/kit

Use Rapid antigen test for Covid-19/Flu A&B/HPIV2/HPIV1+3/RSV/ADV/MP/ SP/HMPV from human oropharyngeal swab specimens.

Name Respiratory 10-in-1 Rapid Antigen Test

02

Eugenics Rapid Test Series (Immunochromatographic Assay)

Model ICA2225

Packing 1 test/kit

Use In vitro qualitative detection of HCG in human urine specimens to aid in the early detection of pregnancy.

Name (Urine) HCG Rapid Test Kit

Model ICA2235

Packing 1 test/kit

Use Qualitative detection of human chorionic gonadotropin (HCG) in saliva to aid in the early detection of pregnancy.

Name (Saliva) Pregnancy Rapid Test Kit

Model ICA2230

Packing 1 tests/kit

Use For the qualitative presumptive detection of Luteinising Hormone (LH) in human urine specimens.

Name Luteinising Hormone (LH) Rapid Test Kit

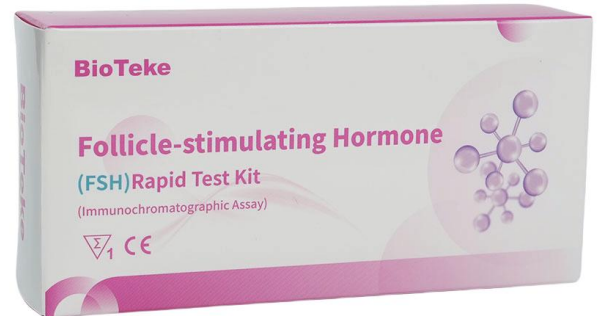

Model ICA2229

Packing 1 test/kit

Use For in vitro qualitative detection of follicle stimulating hormone(FSH) in women's urine.

Name Follicle-stimulating Hormone (FSH) Rapid Test Kit

03

Sexually Transmitted Infections Rapid Test Series (Immunochromatographic Assay)

Model ICA2225-1

Packing 1 test/kit

Use For qualitative detection of Human Immunodeficiency Virus (HIV 1/2) in human serum, plasma and whole blood samples.

Name HIV 1/2 Antibody Rapid Test Kit

Model ICA2216

Packing 1 tests/kit

Use Detection of Candida albicans antigen in swabs of vaginal secretions from women over 18 years of age for the auxiliary diagnosis of Candida albicans infection.

Name Luteinising Hormone (LH) Rapid Test Kit

Model ICA2220

Packing 1 tests/kit

Use In vitro qualitative diagnosis of gonorrhea antigens in male urethral swabs or female cervical swabs to assist in the diagnosis of gonococcal infection.

Name Neisseria Gonorrhoeae Antigen Rapid Test Kit

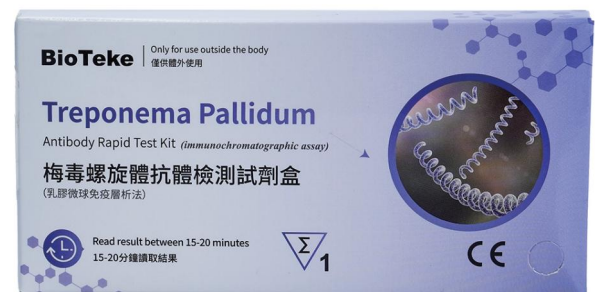

Model ICA2219

Packing 1 tests/kit

Use Qualitative detection of Treponema pallidum antibodies in human whole blood/serum/plasma samples has helped diagnose syphilis infection.

Name Treponema Pallidum Antibody Rapid Test Kit

Model ICA2118-1

Packing 1 tests/kit

Use For initial testing suspected Chlamydia trachomatis infections and qualitatively detect the presence of Chlamydia trachomatis antigen in clinical female cervical specimens or male urethral specimens.

Name Chlamydia Trachomatis Antigen Rapid Test Kit

Model ICA2118-1

Packing 1 tests/kit

Use In vitro qualitative detection of Trichomonas vaginalis antigen in swabs of vaginal secretions from women over 18 years of age for the auxiliary diagnosis of Trichomonas vaginalis infection.

Name Trichomonas Vaginalis Antigen Rapid Test Kit

Model ICA2227

Packing 1 tests/kit

Use For the qualitative detection of Helicobacter pylori (HP) antigen in human fecal samples.

Name Helicobacter Pylori Antigen Rapid Test Kit

Model ICA2226

Packing 1 tests/kit

Use For in vitro qualitative detection of hemoglobin in human feces to detect GI bleeding and provide reference for the diagnosis of GI bleeding diseases.

Name Fecal Occult Blood (FOB) Rapid Test Kit

Model ICA2416

Packing 1 test/kit; 2 tests/kit; 20 tests/kit

Use For in vitro qualitative detection of Group A Rotavirus/Adenovirus 40&41/Norovirus Gi&Gii ag in human stool specimens.

Name Rota-Noro-Adv Antigen Rapid Test Kit

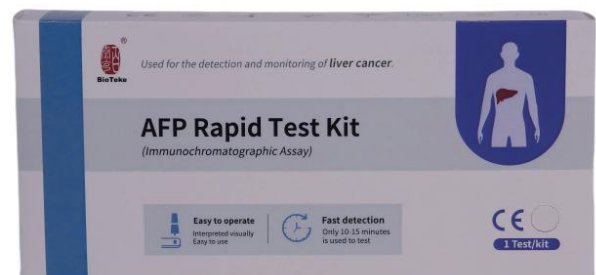

04 Tumor Marker Rapid Test Series (Immunochromatographic Assay)

Model ICA2402

Packing 1 tests/kit

Use Qualitative detection alpha fetoprotein (AFP) in human samples. Used for auxiliary diagnosis, efficacy and prognosis observation of primary liver cancer.

Name AFP Rapid Test Kit

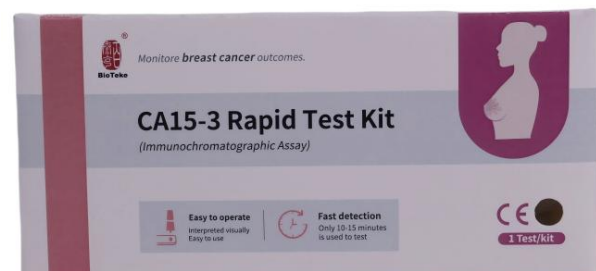

Model ICA2409

Packing 1 tests/kit

Use Detect cancer antigen 15-3(CA15-3) in human samples, and is mainly used in clinical observation of therapeutic efficacy and prognosis of breast cancer.

Name CA15-3 Rapid Test Kit

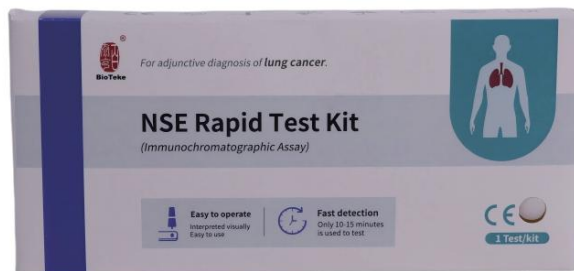

Model ICA2405

Packing 1 tests/kit

Use Detect neuron specific enolase (NSE) in human samples, clinically it is mainly used for auxiliary diagnosis of small cell lung cancer (SCLC) and differential diagnosis of non-small cell lung cancer (NSCLC), monitoring changes in SCLC and neuroblastoma, treatment response, and monitoring recurrence.

Name NSE Rapid Test Kit

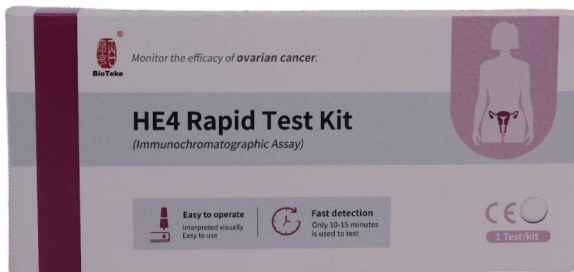

Model ICA2408

Packing 1 tests/kit

Use Detect human epididymis protein 4 in human blood samples and is used clinically to monitor the efficacy of ovarian cancer.

Name HE4 Rapid Test Kit

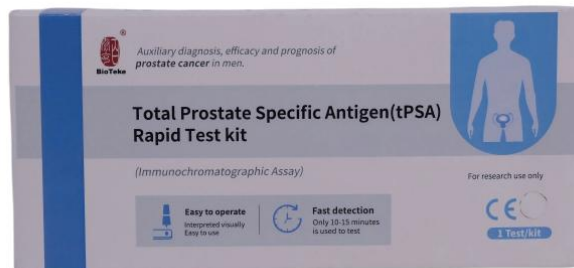

Model ICA2402-202412801

Packing 1 tests/kit

Use Qualitative detection the content of Total Prostate Specific Antigen (tPSA) in human blood specimen. An auxiliary diagnostic method for screening and detecting prostate cancer for men.

Name Total Prostate Specific Antigen (tPSA) Rapid Test Kit

05

Tropical Disease Rapid Test Series (Immunochromatographic Assay)

Model ICA2234-1

Packing 1 test/kit

Use Qualitatively detect Dengue NS1 Antigen in human serum, plasma or whole blood samples. Suitable for early auxiliary diagnosis and screening of Dengue Virus infection.

Name Dengue Virus NS1 Antigen Rapid Test

Model ICA2024

Packing 1 test/kit

Use In vitro qualitative detection of monkeypox virus antigen in human anterior nasal swab, oropharyngeal swab and rash exudate swab samples.

Name Monkeypox Virus Antigen Rapid Test Kit

06

Model ICA2414

Packing 1Test / kit;20 Tests / Kit

Use This product is used to detect the vitamin D content in human finger whole blood. This testing method provides preliminary diagnostic test results that can be used to screen for vitamin D deficiency.

Name Vitamin D Rapid Test Kit
